Event Director Message

Our 48th Running Celebration

WE MDE IT! Our second attempt at our 48th Running finally happened after 18 months of uncertainty. Of course, our first attempt was wiped out when Covid-19 struck with the cancellation of our April 11, 2020 event on Friday, the 13th of March of that year. But we were back, albeit in September, thanks to the science, which created the vaccines, our runners, who care deeply about this event, our incredible organizing committee, which creatively and tirelessly met every challenge put before us, and the deep commitment of Credit Union Miracle Day, our title sponsor, and our presenting and supporting sponsors.

This year marks my 30th year of directing the race, and I can say, without hesitation, this was the most challenging and stressful ever — preparing for all of the pandemic uncertainties ranging from no race, to a different type of race, to running the race like the old days. It truly was like organizing three races simultaneously. The pandemic seeped into every facet of the organization of the event in ways we could never had imagined.

For example, our finisher awards did not arrive at the office until three days before the race. Normally, they arrive 2-3 weeks out. I ordered them with that time line in mind. What happened? Our awards are made of plexi-glass and every plexi-glass manufacturer has been inundated with orders for Covid-19 shields.

I knew I had been under a lot of stress when the facial recognition software on my iphone didn't recognize me. But it was all worth it to be able to present the "Runner's Delight of Fall" after 18 long months of abstinence. We may not have welcomed the cherry blossoms, but we did welcome back the human spirit and human resilience. It doesn't get any better than that.

And how exciting it was to see America's finest runners on the streets of our Nation's Capital participating in the USATF National Ten Mile Championship presented by Toyota. They served as inspirations to all of us.

I hope you will scroll through the pages of our environmentally friendly PDF results publication and relive the excitement and the magic of our one-time Fall Edition through the articles, photos and finisher lists. As a reminder, you can measure your performance against our elite athletes or anyone else in the field by using of the "Age Graded" quotient supplied with each finisher's time. This provides a way for you to compare your time, based on your age and sex, with the performance of any other runner based on his or her age and sex.

I hope your experience at this year's event will entice you to join the thousands race entrants who use their local Credit Unions for their financial needs. (Details about joining a Credit Union appear in the center spread of this results publication.) They have been the best title sponsor ever, all the way back to 2002. During their tenure, the event has raised over \$10 million dollars for the Children's Miracle Network Hospitals, a total which was augmented by \$180,000 this year.

I am very pleased to announce that shortly after the conclusion of this year's race, Credit Union Miracle Day extended its sponsorship through the 2025 race.

I also would like to take a final opportunity to thank our 2021 Presenting Sponsors Asics, our official shoe and apparel sponsor; MedStar Sports Medicine; and Garmin, our Technology sponsor; and our Supporting Sponsors including Gatorade, provider of the Gatorade Endurance Formula out on the course; Potomac River Running, our official retail sponsor; E-Trade; and Suburban Solutions, who hauled a lot of stuff around on race weekend. I'd also like to extend a special thanks to DrinkMore water for supplying the water, the Montgomery County RRC for handling the water stop logistics, the National Park Service, and the U.S. Park Police.

We are already reviewing artwork for our 49th running of the event on Sunday, April 3, 2022. The planning cycle never stops. Our plan is to hold lottery registration January 3-16, 2022. Everyone who entered the race this year, even if you were not accepted, will be sent email notification about the entry process. Remember to let us know if you move or change your email address so we can keep our records up to date. If you have friends or associates who did not run this year (or if you have run before but did not run this year) anyone can sign up to receive an email containing the 2022 entry information on the race website at www.cherryblossom.org. Be sure to check your spam filters if you do not hear from us — or just check the website from time to time.

If you had a good time or have suggestions, please let us know. You may write to us at Credit Union Cherry Blossom, 4963 Elm St., Suite 106, Bethesda, MD 20814 or send us an e-mail to: racedirector@cherryblossom.org.

As always, I am deeply indebted to all of my race committee members — especially Deputy Director Becky Lambros and Cherry Blossom, Inc. President Irv Newman — who toiled tirelessly throughout the year to make it all happen.

Happy Miles,
Phil Stewart
Event Director

USATF 10 Mile Championships at the Credit Union Cherry Blossom Ten Mile Run

Host a Bonanza of Top-Flight American Runners

by Mark Heinicke

What do you do when the COVID-19 pandemic has shut down your race in April 2020 and 2021, forced caps on participation, and depleted your revenues? One thing you can do is postpone your race into the fall, host a U.S. Championships, offer the same high level of “customer service” that you always have, and conjure an event with the same upbeat look-and-feel that it has offered for the last 49 years. Plus bring in top-flight elite competition.

The result: the first in-person edition of the Credit Union Cherry Blossom Run in 29 months (April 2019 – September 2021) took place without cherry blossoms and with less than half of the usual 17,000+ runners. What it *did* have was hosting the 2021 USATF 10 Mile Championships and close, exciting races among elite U.S. runners vying for championships wins, as well as top-flight international races.

The races in both the men’s and women’s fields were not just close and exciting, they were *fast*, particularly for a day on the warm side. Women’s winner Nell Rojas posted the fastest-ever U.S. women’s time in the event, and 10th-fastest open (international) women’s time (52:13). Runner-up Jenny Simpson posted the third-fastest event time for American runners, with Annie Frisbie

the fourth-fastest ever. Men’s winner Edwin Kimutai, running alone for the last four miles, sizzled to the ninth fastest-ever international time in the race (and sixth-fastest *individual*) at 45:45. Behind Kimutai, Biya Simbassa attained the third-fastest time for an American in the event (46:18), with Augustus Maiyo posting the fourth-fastest (46:23).

To put candles on the cake, seven of the top 10 American women, and seven of the top 10 American men, recorded personal bests at 10 miles.

The men’s and women’s races unfolded quite differently. On the men’s side, Kenyan Edwin Kimutai broke away from the Americans at five miles and continued to stretch his lead to 33 seconds over Simbassa at the end. In the USATF Championships race, Simbassa and Maiyo ran head to head until, roughly 200 meters from the finish, Simbassa shot away to a five-second margin. Third and fourth Americans Reed Fischer and Frank Lara arrived 36 and 49 seconds behind Maiyo.

Simbassa’s capture of the USATF Championship was especially sweet after two near-misses in recent USATF Championships at 20K in the New Haven Road Race and the 15K Gate River Run in Jacksonville, Florida—the former by one second, the latter by two seconds.

In those two cases he had tried to come from behind and fell short; this time around, he stuck with Maiyo for 15,700 meters, then went for the kill. “It feels good. I’ve been hunting for a long time, and it finally happened today.”

Prior to the race, Simbassa had downplayed his chances, saying “Anyone can have a good or bad day.”

In contrast, Kimutai’s victory was bittersweet. He had been reluctant even to enter the race, since his wife had died just three weeks before the race. But he decided to race in her honor, and his first place prize helps him to raise his single-parent daughter.

The women’s race met the high expectations whipped up by pre-race publicity over a stellar field. The media had framed it as a contest between two standouts with very different running resumes: Jenny Simpson, owner of Olympic bronze and World Championships gold medals at 1500 meters, and Sara Hall, owner of the second-fastest American marathon time of 2:20:32 and winner of three major road races during the summer. Hall ran a personal best of 31:33 for 10K while winning the Mastercard women-only New York Mini in June and 31:41 at the Peachtree Road Race in Atlanta in July.

The contrast had all the optics of a

duel between a road-racing endurance specialist and a lightning-fast track specialist. Jenny Simpson had never run a professional road race at a distance longer than a mile (having won the Fifth Avenue Mile eight times), but boasts a 1500 meter best of 3:57.22.

The actual race evolved along those lines, with a slightly different cast of characters. The women’s race saw a six-runner group within a few strides of each other do battle for nine miles. Much of the pacemaking from the very first mile was done by American Annie Frisbie and Kenyan Antonia Kwambai. Coming up to the seven-mile mark, Nell Rojas began to assert herself at the front of the bunch, but couldn’t shake the other five for the next two miles as they rounded Haines Point and headed back toward the finish at the Washington Monument grounds.

In the vehicle ahead of them, play-by-play announcer Keira D’Amato—herself the owner of the U.S. women-only record of 51:23 at 10 miles—could barely contain her excitement as the bunch continued to cling together with no clear favorite. The suspense kept rising with Frisbie and Kwambai at the front countering every move by Rojas while the rest hung on. At one moment, Kwambai’s fellow Kenyan Caroline

Continued on page 6

Rotich took a stab at the front then settled back behind Kwambai.

Sara Hall, who had been training at a 100-plus miles per week regime in preparation for the Chicago Marathon, began to fall off the leaders' pace at nine miles, while Simpson stuck to the group like glue.

At last, with a half mile to go, Rojas made a surge up a slight grade that splintered the five-strong group, and only Simpson could match her pace. Rojas began her kick 600 meters out, hoping to shed Simpson before it came down to a sprint in view of the finish banner. Approaching the final straight, Rojas took one last glance at Simpson and hammered to a three-second lead at the finish line.

Rojas, herself a long-distance road runner with a marathon best of 2:28:09, had answered for the day the question of what matters more at 10 miles: endurance or speed. Endurance, if the pace is hard and long enough to drain the sting out of a speedster. Rojas noted: "At seven or eight miles I could tell Jenny

and the others were working hard, and I was like 'I'm not working hard.' At that point I was OK letting myself believe I could win." The challenge became, could she hold off Simpson, knowing 'I couldn't let Jenny have the last 50-meter sprint, and told herself, "I'm fine with second, but just let me do this."

Rojas came by her running savvy as the daughter of Ric Rojas, a world-class road racer during the 1970s-1980s, and current running coach. Her father paved the way for Nell to become head coach at rojasrunning.com.

For her part, Simpson was philosophical about her baptism by fire at a 10 mile road race: "Sometimes the best thing that can happen with a new experience is to get second. I'm finishing hungry. Overall, the entire experience was 10 times better than I expected."

Seven seconds behind Simpson came Kwambai, and Rotich won a final duel with Frisbie to take fourth place overall. A clock-tick behind Rotich, Frisbie scored third in the USATF 10 Mile Championships.

At the end, only 13 seconds separated first (Rojas) from fifth (Frisbie) among the women. Sara Hall finished sixth, 17 seconds behind Frisbie.

And what about seventh place overall and fifth among Americans? Eight seconds behind Hall, Carrie Verdon emerged from the 'no man's land' she had occupied for four long miles, while trailing the lead group by half a minute and leading Diane Nukuri by half a minute. She had been running with Simpson up to the water stop at Mile Six at the back of the group, when a surge took place among the leaders. Simpson flew across to the break in an instant, but Verdon failed to cover it, a lapse she later attributed to inattention. She then found herself running alone for the next 15 minutes, and fighting a headwind once the course turned back toward the finish. Still, she broke 53 minutes with a personal best of 52:51 and expressed satisfaction with herself while vowing not to let herself be caught off guard again.

Although a two-year drought of in-person races and pandemic-enforced

caps on participation have driven down prize money in many events, the Cherry Blossom race took advantage of the USATF 10 Mile Championships to offer a boon to American runners: \$26,000 in total, topped by \$5,000 for the winners on the men's and women's sides won by Simbassa and Rojas, down to \$500 for 10th. The open (international) prizes totaled \$20,000, from the \$5,000 won by Edwin Kimutai and Nell Rojas, down to \$150 for tenth place. U.S. runners also benefited from RRCA Road Scholars-RunPro Camp Development Program totaling \$6,000, with first-place prizes of \$1,500.

You can't mention money in the Credit Union Cherry Blossom Ten Mile Run and 5K Run-Walk without calling attention to the principal charity recipient of the race, the Children's Miracle Network. This year the race contributed \$180,059, which brings the total to over \$10 million since 2002.

Congrats on your finish!

Age Graded Quotient

Your age graded quotient helps you compare your performance with the performance of another runner of a different age and possibly a different gender. The number is the ratio between the "world record" time for a runner of your age and gender divided by your time. If the 10 mile "world record" for a 56-year-old woman was 1:00:00 (3600 seconds) and a 56-year-old woman ran 1:30:00 (5400 seconds), her age graded performance would be .6666. If the 10 mile "world record" time for a 40 year old male was 48:00 (2880 seconds) and 40-year-old man ran 55:00 (3300 seconds), his age graded quotient would be .8727. This means the 40-year-old male's performance was better relative to his age and gender than the 56-year-old woman's performance.

Les Kinion Award

Credit Union Cherry Blossom Run Presents 2021 Les Kinion Outstanding Service Award to Marsha Way in Recognition of Her Many Years of Service to the Race

Award honors the memory of longtime race volunteer Les Kinion.

by Keith Peters

Deputy Race Director Becky Lambros presents Marsha Way with the Les Kinion Award. Marsha has performed myriad tasks during her years of service to the committee.

Photo: Karen Mitchell

September 11, 2021, Washington, DC: Credit Union Cherry Blossom organizers announced today that Marsha Way has been named the 2021 recipient of the Les Kinion Outstanding Service Award. Established in 2015, the award is presented at the pre-race dinner for the Credit Union Cherry Blossom Run. Last year's event got sidelined due to Covid-19, making the energy and enthusiasm particularly inspiring on Saturday evening as Deputy Race Director Becky Lambros announced Marsha's name as this year's award recipient.

"I met Marsha Way 48 years ago when she came to my room at Youngstown State University and recruited me to play field hockey for the school. What followed was a lifetime of creating stories! Some of the stories are hilarious, some sad but through it all Marsha and I are

inseparable! I am so proud of her, her talent as a coach, her sense of humor, her attention to detail and most of all how she takes care of me! She is the person in my life who would be there seconds after I called her for help—no questions asked. Her dedication to the Credit Union Cherry Blossom race is unfailing — I'm not sure the race could go on without Marsha issuing orders from the Volunteer tent — and everyone listens! That is an indication of the respect everyone has for her. When we are in a bind we all say — Ask Marsha. The Les Kinion award was created to honor outstanding volunteers — Marsha is truly one of those."

Race Director Phil Stewart added: "Marsha's enthusiasm and energy for the race seem to ramp up to a crescendo as race weekend approaches. She has recruited and motivated our volunteer corps

for over 20 years. She approaches our volunteers the same way she approached her high school field hockey teams which she coached to numerous Virginia State titles — with caring but with a no nonsense style that brings out the best in everyone. In the end, volunteers just want to do whatever Marsha asks them to do. She is a most worthy recipient of the 2021 Les Kinion Outstanding Volunteer Service award."

It was this enthusiasm and energy for the race that permeated the room as Marsha received the award. Like previous Kinion Award recipients, she stood out as a worthy award recipient through the impact that she has had in bringing this event together, but with her unique coach-like corralling and championing of her fellow volunteers at the forefront.

The Les Kinion Award was established in honor of Les Kinion,

a Baltimore firefighter with Engine Company 43. By passion, he was first a runner and then a running club officer and race director. In 1970, Les co-founded the Baltimore Road Runners Club, one of the earliest chapters of the Road Runners Club of America. In 1973 he helped launch the first Maryland Marathon. After retiring in 1986, Les moved to Bishopville, MD, and worked on hundreds of races on the Maryland-Delaware Coast. He became involved with the Cherry Blossom Run in the early 1990s, and was active until he passed away in July 2014 at the age of 78.

Past Award Winners

Age Graded Quotient

Your age graded quotient helps you compare your performance with the performance of another runner of a different age and possibly a different gender. The number is the ratio between the "world record" time for a runner of your age and gender divided by your time. If the 10 mile "world record" for a 56-year-old woman was 1:00:00 (3600 seconds) and a 56-year-old woman ran 1:30:00 (5400 seconds), her age graded performance would be .6666. If the 10 mile "world record" time for a 40 year old male was 48:00 (2880 seconds) and 40-year-old man ran 55:00 (3300 seconds), his age graded quotient would be .8727. This means the 40-year-old male's performance was better relative to his age and gender than the 56-year-old woman's performance.

Crossing Memorial Bridge minutes into the race, American Annie Frisbie (#30) and Kenyan Antonia Kwambai (#22) take over pacemaking duties.

With Arlington Memorial Cemetery in the distance, Frisbie and Kwambai continue to set the pace coming back across the bridge. On the right, 1500m Olympic bronze medalist Jenny Simpson tests her legs in her first long distance road race. Other Americans are Carrie Verdon (#44) on the far left, next to Sara Hall (#54). The eventual winner Nell Rojas is directly behind Hall.

With a mile to go, Rojas (center) puts the hammer down while the others—Frisbie (on left), Kwambai (on right), Simpson (behind Rojas), Rotich (behind Kwambai), and Hall (behind group)--hang on tenaciously. The faint blur in the distance over Rotich's head is Carrie Verdon running alone.

Three wise women await runners' questions at the crack of dawn.

TOGETHER our voices are STRONG

Thanks for **MAKING A DIFFERENCE** with us!

Thank you

to the credit unions that support this race, the hundreds of credit union volunteers who helped make race day a huge success and the 4,000+ credit union members who run in the race.

Together we were able to raise \$180,000, including more than \$26,000 donated by runners, for Children's Miracle Network Hospitals.

Credit unions strive to make a positive impact through member and community outreach activities. In 2020, credit unions provided \$13.7 billion in total financial benefits directly back to consumers across the country.

To learn more about credit unions in your area, please visit www.mycreditunion.gov.

4,000+

runners in this year's race
are members of a credit union.

Credit union sponsorship of
this race has raised over

\$10 million

for **Children's Miracle
Network Hospitals**

MedStar Health

You don't have to be an elite athlete to receive elite care.

MedStar Health is the official sports medicine partner of the Credit Union Cherry Blossom Ten Mile Run, and we're here to help you after the race.

If you are experiencing pain related to running, call **888-44-SPORT** (888-447-7678) to schedule an in-person evaluation or a video visit with one of our sports medicine providers.

It's how we treat people.

www.rrca.org

Joining a local running club can help you achieve your running and fitness goals. Running clubs provide a great social network in an atmosphere that is supportive of your running goals.

Find your local club at www.RRCA.org/clubs. Click on your state and find your local running club.

Don't see a running club in your town? Start one! Click on the JOINING link on our website at www.RRCA.org and learn how to start an RRCA running club in your community.

To learn more about the Road Runners Club of America, our members, our programs and our services that benefit the running community visit us to today at www.RRCA.org.

Age Graded Quotient

Your age graded quotient helps you compare your performance with the performance of another runner of a different age and possibly a different gender. The number is the ratio between the "world record" time for a runner of your age and gender divided by your time. If the 10 mile "world record" for a 56-year-old woman was 1:00:00 (3600 seconds) and a 56-year-old woman ran 1:30:00 (5400 seconds), her age graded performance would be .6666. If the 10 mile "world record" time for a 40 year old male was 48:00 (2880 seconds) and 40-year-old man ran 55:00 (3300 seconds), his age graded quotient would be .8727. This means the 40-year-old male's performance was better relative to his age and gender than the 56-year-old woman's performance.

Edwin Kimutai (#63) attempted to shake rivals Augustus Maiyo (#11) and Dominic Korir (#25) within the first mile, but they were having none of it for the next four miles.

Pl	Name, Age, Hometown	Official Time	Age Graded

Rob Halliday shows some strain leading the 5K.

Evan Fontana (bib #1156) is all smiles running his first race since the covid pandemic.

Julie Reiff (bib#1714) and Karen Hottle (bib #3183) appreciates having water and Gatorade along the race course.
